Independent Auditor’s Report

To the Board of Directors
National Aquarium, Inc.
Baltimore, Maryland

Report on the Financial Statements
We have audited the accompanying consolidated financial statements of National Aquarium, Inc. and Subsidiaries (collectively, the Aquarium), which comprise the consolidated statements of financial position as of December 31, 2016 and 2015, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively, the financial statements).

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of National Aquarium, Inc. and Subsidiaries as of December 31, 2016 and 2015, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1. Nature of Activities and Significant Accounting Policies

Nature of activities: National Aquarium, Inc. and Subsidiaries (collectively, the Aquarium) is a nonprofit corporation that operates and manages an aquarium and centers for the study of marine sciences in Baltimore, Maryland and provides recreational and educational facilities for its guests. The Aquarium is comprised of three nonprofit corporations, National Aquarium, Inc. (NA), National Aquarium Foundation, Inc. (the Foundation) and the Center for Aquatic Life and Conservation, Inc. (CALC).

A summary of the Aquarium’s significant accounting policies follows:

Principles of consolidation: The consolidated financial statements include the accounts of NA, the Foundation, and CALC. All intercompany accounts and transactions were eliminated for consolidation purposes.

Basis of accounting: The accompanying consolidated financial statements have been prepared on the accrual basis of accounting, whereby revenue is recognized when earned and expenses are recognized when incurred.

Basis of presentation: The Aquarium is required to report information regarding its consolidated financial position and activities according to three classes of net assets: unrestricted, temporarily restricted, and permanently restricted.

Unrestricted net assets: Unrestricted net assets are the net assets that are neither permanently restricted nor temporarily restricted by donor-imposed stipulations.

Temporarily restricted net assets: Temporarily restricted net assets result from contributions whose use is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Aquarium pursuant to these stipulations. Net assets may be temporarily restricted for various purposes, such as use in future periods or use for specified purposes.

Permanently restricted net assets: Permanently restricted net assets result from contributions whose use is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by the Aquarium’s actions.

Revenue recognition: The Aquarium reports gifts of cash and other assets as temporarily restricted if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of activities as net assets released from restrictions.

The Aquarium reports gifts of land, buildings and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long lived assets must be maintained, the Aquarium reports expirations of donor restrictions when the donated long lived assets are placed in service or the acquired long lived assets are purchased.
Note 1.  Nature of Activities and Significant Accounting Policies (Continued)

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. Promises to give are carried at the present value of expected future cash flows computed using a discount rate based on the Daily Treasury Yield Curve rate as of December 31, 2016. Amortization of the discount is included in contributions and grants revenue.

Membership revenue is recognized ratably over the term of the membership. Prepayments are recorded as deferred revenue when received.

Admissions and group sales revenue is recognized on the date of admission. Prepayments are recorded as deferred revenue when received.

Auxiliary revenue consists of attendance related items, visitor photos, locker rental and revenue, in addition to sponsorship and miscellaneous income. Auxiliary revenue is recognized when the service is provided.

Revenue from grants is recognized when expenses are incurred.

Gift shop and food revenue is recognized on the date of sale.

Cash and cash equivalents: Cash and cash equivalents consist of cash and funds deposited in a money market fund and temporary investments with a maturity of three months or less. Cash equivalents held temporarily in the investment portfolio are reported with investments.

Financial risk: The Aquarium maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. Management considers this to be a normal business risk.

Debt issuance costs: Debt issuance costs are capitalized and amortized over the life of the related debt. Bond issuance costs, net of accumulated amortization of $70,505 and $83,324 as of December 31, 2016 and 2015, respectively, are included in bonds payable on the statements of financial position. Capital lease issuance costs, net of accumulated amortization of $94,524 and $102,826 as of December 31, 2016 and 2015, respectively, are included in capital lease obligation on the statement of financial position. Notes payable issuance costs of $96,664 as of December 31, 2016 and 2015 are included in notes payable on the statement of financial position. Amortization expense was $21,121 and $20,483 for the years ended December 31, 2016 and 2015, respectively.

Other assets: Other assets consist of other receivables and prepaid expenses.

Investments: Investments are recorded at fair value based on closing values on the last trading day of the year. The Foundation invests in a portfolio that includes mutual funds, equities and hedge funds. Such investments are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with such investments and the level of uncertainty related to the changes in value of such investments, it is at least reasonably possible that changes in risks in the near term would materially affect investment balances and the amounts reported in the consolidated financial statements.

Property and equipment: Expenditures made by the Aquarium for portions of capital projects which the Aquarium will own are included in property and equipment at cost, if purchased, or at their fair value at the date of the gift, if donated. Expenditures made by the City of Baltimore (the City) for capital projects are not included in the Aquarium’s consolidated financial statements because these assets are owned by the City.
Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Management’s estimate of the cost of construction of all aquarium buildings in the City, including renovations/improvements made subsequently, was approximately $219,655,000 and $224,029,000 as of December 31, 2016 and 2015, respectively. Of this amount, approximately $175,009,000 and $179,383,000 has been capitalized in the accompanying consolidated statements of financial position as of December 31, 2016 and 2015, respectively. The remaining amount is not capitalized in the accompanying consolidated financial statements as it pertains to assets paid for and owned by the City (see Note 2).

All other property and equipment are the property of the Aquarium and, accordingly, are included in the accompanying consolidated financial statements.

Property and equipment are depreciated using the straight-line method over the following estimated useful lives:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Useful Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Furniture, fixtures and office equipment</td>
<td>3-10 years</td>
</tr>
<tr>
<td>Other equipment</td>
<td>3-10 years</td>
</tr>
<tr>
<td>Building and leasehold improvements</td>
<td>3-30 years</td>
</tr>
</tbody>
</table>

Exhibits are included in building and leasehold improvements and are depreciated using the straight-line method over five years for revolving exhibits and 10 to 30 years for permanent exhibits.

Construction in progress consists of costs incurred relating to various renovation projects of existing facilities, exhibits and displays.

**Valuation of long-lived assets:** The Aquarium accounts for the subsequent measurement of certain long-lived assets in accordance with subsections of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) Topic Property, Plant, and Equipment that address Impairment or Disposal of Long-Lived Assets. The accounting standard requires that property, plant, and equipment and certain identifiable intangible assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of the long-lived asset is measured by a comparison of the carrying amount of the asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. Assets to be disposed of are reportable at the lower of the carrying amount or fair value, less costs to sell.

**Deferred rent:** Rents on operating leases are reported whereby total rent expense under the leases is charged to operations on a straight-line basis over the term of the related leases. The difference between rent expense and lease payments is accounted for as deferred rent.

**Volunteer services:** The Aquarium utilizes a volunteer program that incorporates extensive training protocols to meet various operational needs. The fair market value of these volunteer services is recognized as contribution revenue and the applicable expense in the accompanying consolidated financial statements. During the years ended December 31, 2016 and 2015, the fair value of contributed services meeting the requirements for recognition in the financial statements was $2,347,743 and $757,809, respectively. In addition, many individuals volunteer their time and perform a variety of tasks that assist the Aquarium. The Aquarium receives more than 90,000 volunteer hours per year.
Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Advertising: Advertising costs are expensed as incurred and were approximately $5,585,527 and $4,130,613 for the years ended December 31, 2016 and 2015, respectively. The increase in advertising costs are due to advertising services that were donated to the Aquarium in 2016.

Income taxes: The Aquarium and its subsidiaries are generally exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC). In addition, the Aquarium and its subsidiaries qualify for charitable contribution deductions under Section 170(b)(1)(A) and have been classified as organizations that are not private foundations under Section 509(a)(1). Income which is not related to exempt purposes, less applicable deductions, is subject to federal and state corporate income taxes. The Aquarium had no net unrelated business income for the years ended December 31, 2016 and 2015.

Management has evaluated the Aquarium’s tax positions and has concluded that the Aquarium has taken no uncertain tax positions that require adjustment to the consolidated financial statements.

Generally, the Aquarium is no longer subject to income tax examinations for the U.S. federal, state or local tax authorities for years before 2013.

Interest rate swap agreement: The Aquarium recognizes all derivative financial instruments in the financial statements at their fair value. The Aquarium participates in an interest rate swap contract that is considered a derivative financial instrument. Changes in the fair value of the derivative financial instrument are recognized in the consolidated statements of activities as gain (loss) on interest rate swap contract.

Use of estimates: The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Reclassification: Certain 2015 amounts were reclassified to conform to the 2016 presentation. These reclassifications had no effect on previously stated net assets or change in net assets.

Subsequent events: The Aquarium has evaluated subsequent events through May 10, 2017, which is the date the consolidated financial statements were available to be issued.

Accounting pronouncement adopted: In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-03, Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, which requires that debt issuance costs related to a recognized debt liability be presented on the consolidated statements of financial position as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The ASU is effective for the Aquarium for the year ending December 31, 2016. The Aquarium adopted this ASU as of December 31, 2016, which resulted in changes to the Aquarium’s treatment of debt issuance costs including the presentation of those costs on the Aquarium’s consolidated statements of financial position as of December 31, 2016 and 2015.
Accounting pronouncements pending: In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). The amendments in this ASU create Topic 606, Revenue from Contracts with Customers, and supersede the revenue requirements in Topic 605, Revenue Recognition, including most industry-specific revenue recognition guidance throughout the Industry Topics of the ASC. In summary, the core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments in this ASU are effective for annual reporting periods beginning after December 15, 2018. The impact of adopting ASU 2014-09 on the Aquarium’s consolidated financial statements for subsequent periods has not yet been determined.

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The ASU is effective for the Aquarium for the year ending December 31, 2017. The adoption of this standard is expected to result in changes to the Aquarium’s fair value measurement disclosures.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which requires that lessees recognize right-of-use assets and lease liabilities for all leases not considered short-term leases. The ASU is effective for the Aquarium for the year ending December 31, 2020. The adoption of this standard is expected to result in the Aquarium recognizing right-of-use asset and lease liabilities for some leases currently accounted for as operating leases under the legacy lease accounting guidance. Management is evaluating the impact of this standard on the Aquarium’s consolidated financial statements.

In August 2016, the FASB issued ASU 2016-14, Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities. The amendments in this ASU make improvements to the information provided in financial statements and accompanying notes of not-for-profit entities. The amendments set forth the FASB’s improvements to net asset classification requirements and the information presented about a not-for-profit entity’s liquidity, financial performance and cash flows. The amendments in this ASU are effective for the Aquarium for the year ending December 31, 2018. Earlier adoption is permitted. The changes in this ASU should generally be applied on a retrospective basis in the year that the ASU is first applied. The Aquarium’s management has not yet evaluated the impact of this ASU on the consolidated financial statements.
Note 2. Management and Lease Agreement

In 1987, the Aquarium entered into a management and lease agreement with the Mayor and the City Council of Baltimore for the purpose of setting forth the rights and obligations of each related to the operation, maintenance and ownership of the Aquarium. Significant provisions of the agreement are as follows:

- The Aquarium set forth its intention to operate the facilities on a self-sustaining basis, dedicating its excess of revenue over expenses for exhibit additions, replacements and renovations.
- The Aquarium is responsible for the operation of the facilities under the general direction of the City.
- The City has legal title to certain of the real and tangible personal property located at the aquarium complex and in the event of the Aquarium’s dissolution, obtains title to all other corporate assets.
- The Aquarium is responsible for the maintenance, repair, replacement and upkeep of the exterior of the aquarium and all structural elements thereof. In addition, the Aquarium is responsible for the repair and maintenance of property and equipment such as water, electric, sewer, heating and air conditioning apparatus and all machinery, equipment and other fixtures used in connection with the operation of the facilities.
- The Aquarium is responsible for maintaining certain levels of comprehensive general liability, fire and extended coverage insurance as defined by the agreement.
- The original 1987 agreement, which does not require annual rental payments, was amended during 2001 to extend the lease term to 2049. The lease shall automatically renew itself for five successive terms of ten years each, upon certain conditions being met by both parties, as defined by the agreement.

Note 3. Promises to Give and Grants Receivable

Included in promises to give and grants receivable are the following unconditional promises to give at December 31, 2016 and 2015:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>

<td>571,367</td>
</tr>
<tr>
<td></td>
<td>$2,030,781</td>
<td>$(1,080,383)</td>
</tr>
</tbody>
</table>

Note 5. Fair Value Measurements

The Aquarium defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and within a fair value hierarchy. The fair value hierarchy gives the highest rank to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest rank to unobservable inputs (Level 3). Inputs are broadly defined as data that market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

**Level 1:** Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Listed equities and holdings in mutual funds are types of investments included in Level 1.

**Level 2:** Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly; Level 2 includes the use of models or other valuation methodologies. Investments which are generally included in this category include corporate loans, less liquid, restricted equity securities and certain corporate bonds and over-the-counter derivatives.

**Level 3:** Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation.
Note 5.  Fair Value Measurements (Continued)

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases an investment’s level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Aquarium’s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. The following section describes the valuation techniques used by the Aquarium:

**Level 1:** Investments in securities traded on a national securities exchange, or reported on the NASDAQ national market, are stated at the last reported sales price on the day of valuation. These financial instruments are classified as Level 1 in the fair value hierarchy.

**Level 2:** Includes investments in funds that calculated NAV per share, or the equivalent. These funds are classified as Level 2 when the Aquarium is able to redeem the funds in the near term, which is generally defined to be within 90 days of year-end.

The Aquarium’s interest rate swap is observable at commonly quoted intervals for the full term of the swap, and therefore is considered a Level 2 item.

**Level 3:** Not applicable.

The following table classifies all investments into the hierarchy set forth by the ASC 820. The table includes those investments that are held and managed by the Aquarium measured at fair value on a recurring basis by level within the hierarchy at December 31, 2016 and 2015.

The fair value of equity and fixed income securities are measured using quoted market prices at the reporting date when quoted market prices are available. When quoted market prices are not available, the Aquarium has used a practical expedient allowed under ASU 2009-12, where each investment’s NAV as reported by each fund manager is an acceptable measurement of fair value owned when coinciding with the Aquarium’s measurement date.

</tbody>
</table>

(a) Equity investments are made through comingled accounts or managed accounts that hold primarily common stock of U.S., non-U.S., emerging markets, and global companies. These funds are classified as Level 1 investments when the funds are publicly traded.

(b) Mutual funds are investments made through managed accounts and hold a variety of equity and debt securities such as U.S. and international stocks, as well as U.S. and international sovereign, agency and corporate debt. These funds are classified as Level 1 investments when the funds are publicly traded.

(c) Hedge funds are investments made through international multi-strategy fund of funds that may invest in a wide variety of assets globally, including equity and debt. These funds calculate NAV per share, or the equivalent. Funds are classified as Level 2 when the Aquarium is able to redeem the funds in the near term, which is generally considered to be within 90 days of year-end.

The Aquarium excludes cash and cash equivalents from the fair value hierarchy as cash is generally measured at cost. As such, $1,119,712 and $574,088 of cash equivalents and a certificate of deposit, in the Aquarium’s investment portfolio at December 31, 2016 and 2015, respectively, have been excluded from this table.
Note 5.  Fair Value Measurements (Continued)

The following table represents information on the Aquarium investments by major category where NAV as a practical expedient to fair value was used.

<table>
<thead>
<tr>
<th>Hedge funds (a)</th>

<td>$ 2,717,067</td>
<td>Monthly</td>
<td>30 days</td>
</tr>
</tbody>
</table>

Total investment values using NAV as a practical expedient to fair value $ 2,717,067

The nature and risks inherent in the Aquarium’s investments where the fair value was estimated using the practical expedient are summarized as follows:

(a) Hedge funds: Hedge fund investments were approximately 9% and 5% of total investments at December 31, 2016 and 2015, respectively, and are comprised of domestic funds of funds, offshore low volatility multi-strategy funds, and international fund of funds. These hedge funds share in the returns and risks associated with international equity and credit markets, interest rate and foreign currencies. In addition, some of these funds may present lower liquidity, organizational risk, event and deal risks, leverage and counterparty risk. Reduced redemption rights have been accepted for certain funds in order to achieve more desirable terms such as lower management fees.

Note 6.  Long-Term Debt

The Maryland Industrial Development Financing Authority (MIDFA), on behalf of the Aquarium, issued a tax-exempt revenue refunding bond (National Aquarium in Baltimore Facility 2012 Issue) in the original amount of $25,980,765. The bond was placed with Bank of America as a non-bank qualified private loan. The loan carries a fixed rate of 2.84%. The loan is subject to certain financial and non-financial covenants. Monthly principal and interest payments in the amount of $199,370 are scheduled for ten years over a 13-year amortization table. The maturity date of the underlying bonds is June 2022, where Bank of America has the ability to call the loan or they can grant an extension of the current terms. The loan balance was $18,258,999 and $20,095,373 at December 31, 2016 and 2015, respectively. The loan is secured by a Security Agreement, whereby the bank has a lien on all current and future receipts of the Aquarium.

On December 15, 2015, the Aquarium purchased a building and property to house the future Animal Care and Rescue Center. To purchase the building and property, finance the issuance costs and finance future renovations, a delayed draw term loan up to $20,000,000 was obtained. The principal balance is subject to a rate of interest per annum equal to the sum of one-month London Interbank Offered Rate (LIBOR) plus 1.15% adjusted on a monthly basis. Interest on the outstanding principal is due monthly beginning January 1, 2016. Principal payments are due monthly beginning January 1, 2018, and are scheduled for ten years over a 25-year amortization table. The maturity date is December 15, 2027. The loan is subject to certain financial and non-financial covenants. The loan balance was $5,515,499 and $4,549,742 at December 31, 2016 and 2015, respectively. The loan is secured by a Security Agreement, whereby the bank has a lien on all current and future receipts of the Aquarium.
Note 6.  Long-Term Debt (Continued)

Interest rate swap contract: In connection with the delayed draw term loan, the Aquarium entered into an interest rate swap agreement, which expires December 15, 2027. At December 31, 2016, the Aquarium has an interest rate swap contract to pay a fixed rate of 3.86% and receive a variable market rate on $11,000,000 notional amount of indebtedness. The Aquarium recognized a net gain (loss) of $3,933 and $(339,942) for the years ended December 31, 2016 and 2015, respectively.

Principal payment requirements on the bond payable and deferred draw term loan at December 31, 2016, are due in future years as follows:

On February 7, 2007, CALC purchased 21.0 acres of land, which contained the central garage and repair facility for the Baltimore City Department of Public Works (DPW), for $250,000. In addition, CALC was required to provide up to $7,975,000 toward the cost of constructing a new garage for DPW, as defined in the agreement.

In conjunction with the purchase, CALC received a $5,000,000 investment from the City of Baltimore Development Corporation (BDC) for acquisition and development of the expected site for CALC. The investment was to be repaid from the development fees received by CALC as defined in the agreement. There were no development fees received by CALC in 2016 or 2015. The funds were provided by way of a reinvestment agreement between CALC and BDC. The reinvestment agreement is parallel to an investment agreement between the Maryland Department of Commerce and BDC. The balance due under this agreement was $0 and $4,871,625 for the years ended December 31, 2016 and 2015, respectively.

During 2016, CALC sold the building and repaid the investment to BDC. The Aquarium recognized a loss on the sale of $4,824,604. As of December 31, 2016, there is still a parcel of land held by CALC for $80,000 that was unrelated to the investment from the City.

Interest expense on long-term debt was approximately $564,000 and $615,000 for the years ended December 31, 2016 and 2015, respectively. The City of Baltimore Development Corporation investment does not charge interest.
Note 7. Capital Lease

In March 2014, NA and the Foundation entered into a non-bank qualified tax-exempt capital lease between the Maryland Clean Energy Center and Bank of America Public Capital Corp relating to the acquisition of infrastructure related capital equipment. Concurrent with the lease, NA also entered into a Guaranteed Energy Savings Contract with Constellation NewEnergy, Inc. for the procurement and installation of the equipment. Installation was completed in the first quarter of 2015. The lease is subject to certain financial and non-financial covenants which are consistent with those associated with its 2012 bond financing. The lease carries a fixed interest rate of 3.68%. The total value of the transaction was $3,418,666.

Total principal payment requirements on the capital lease payable at December 31, 2016, are due in future years as follows:

<table>

Interest expense relating to the capital lease totaled approximately $127,000 and $131,000 for the years ended December 31, 2016 and 2015, respectively.

Note 8. Line of Credit

The Aquarium has an unsecured $3,000,000 revolving line of credit with a floating rate of interest equal to LIBOR plus 150 basis points. The line of credit was renewed in August 2016 and has an expiration date of August 31, 2017. There was no outstanding balance on the line of credit as of December 31, 2016 and 2015.
Note 9. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets as of December 31, 2016 and 2015, are available for the following purposes:

The earnings on permanently restricted net assets are directed for use by the donors and are accounted for in the temporarily restricted funds until appropriated by Aquarium for use in their designated purposes.

The Blaustein Foundation has established endowed funds to provide grants to the Aquarium to finance purchases of aquarium specimens and to support programming activities of the Aquatic Education Resource Center. The original endowments were $250,000 each and income from the endowments has been used for the intended purposes. Based on need and approval, annual earnings are used for grants to the Aquarium and those earnings in excess of expenditures are to be temporarily restricted for the designated purposes.
Note 9. Temporarily and Permanently Restricted Net Assets (Continued)

The James McBride Endowment of $149,944, with additional matching support by the National Aquarium Foundation, Inc. of $150,000, was established to provide funds for education for professional staff.

A donor has established endowed funds in the form of a $1,008,030 bequest to aid in providing additional veterinary support to the Aquarium.

Interpretation of relevant law: The Board of Directors of the Aquarium has interpreted the Maryland-enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Aquarium classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets under UPMIFA until appropriated for use in accordance with the donor’s stipulations.

Return objectives and risk parameters: The Aquarium’s objective is to earn a respectable long-term, risk adjusted total rate of return to support the designated programs. The Aquarium recognizes and accepts that pursuing a respectable rate of return involves risk and potential volatility. The generation of current income will be a secondary consideration. The Aquarium targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints. The Aquarium has established a policy portfolio, or normal asset allocation. While the policy portfolio can be adjusted from time to time, it is designated to serve for long-time horizons based upon long-term expected returns.

Endowment spending policy: The Aquarium will plan for expenditures in its annual budget a maximum of 5% of the rolling average of the market value of the endowment assets over the preceding 12 quarters, with the base adjusted for new capital contributions to the endowment. There may be times when the Aquarium may opt not to take the maximum spending rate but rather to reinvest some of the annual return.

The composition of the Aquarium’s donor-restricted endowment and non-endowment funds at December 31, 2016 and 2015, and changes in endowment net assets for the years then ended, are as follows:

Note 10. Employee Benefit Plans

The Aquarium has a 401(k) plan for employees. The 401(k) plan provides a 50% match on participants’ contributions up to 3% for both 2016 and 2015. The Plan also provides for discretionary employer contributions, but employer contributions were not made in 2016 and 2015. The 401(k) plan expense was approximately $196,000 and $201,000 for the years ended December 31, 2016 and 2015, respectively.

Note 11. Commitments and Contingencies

Commitments: The Aquarium leases office, warehouse, aquatic tank space, and an exhibit under operating lease agreements. Total expense, net of sublease income, for these leases was approximately $1,066,756 and $1,073,278 for the years ended December 31, 2016 and 2015, respectively. The Aquarium has an agreement to sublease office space under an operating sublease expiring June 2018.
Note 11. Commitments and Contingencies (Continued)

Approximate future minimum annual payments under all noncancelable leases are as follows:

<table>

<td>$ 5,101,692</td>
</tr>
</tbody>
</table>

Litigation: Lawsuits and claims are filed from time to time against the Aquarium in the ordinary course of business. The Aquarium, after reviewing developments to date with legal counsel, is of the opinion that the outcome of such matters will not have a material adverse effect on the Aquarium’s consolidated financial statements.

Capital projects: As of December 31, 2016, the Aquarium has signed contract commitments for approximately $15,219,000 of capital projects. Construction and design contracts for the Animal Care & Rescue Center (ACRC) comprise approximately $13,991,000 of the capital contract commitments.

Power purchase agreement: In July 2014, NA entered into a power purchase agreement with Constellation NewEnergy, Inc. committing NA to purchasing all of the energy output of a specifically identified solar facility completed in the second quarter of 2015. The solar facility output serves as a price component for a blended fixed rate on all energy consumption of the Aquarium through March 2040. The established rate per Megawatt Hour is subject to an annual 2.9% increase through the fixed rate period ending on December 2020. The pricing from January 2021 to March 2040 is on a “pass-through model” on variables described in the agreement.

Self-insurance program: The Aquarium maintains a self-insured medical plan for the benefit of its employees. The medical plan is administered through a contractual relationship with an unrelated company. The Aquarium is responsible for all claims incurred up to the amount of its stop loss insurance, which it maintains on both a “per employee” basis and in the aggregate. The Aquarium’s expense under the self-insured medical plan amounted to approximately $1,293,720 and $1,241,660 for the years ended December 31, 2016 and 2015, respectively. The Aquarium includes a provision for estimated claims in accounts payable and accrued expenses on the consolidated statements of financial position.
Note 12. Expenses

Note 13. Subsequent Event

On March 21, 2017, subsequent to year-end, the Aquarium entered into a series of transactions which provided permanent financing related to the renovation of the property that will house the future Animal Care and Rescue Center (ACRC property). The transactions met the qualifications for the New Markets Tax Credit (NMTC), as outlined in Internal Revenue Code (IRC) Section 45(d).

As part of the transaction, the Aquarium has established two new entities: ACRC Lender, LLC (Lender) and ACRC Lessor, Inc. (Lessor). Lender is a single member LLC of the Aquarium, and is considered a disregarded entity for income tax purposes. Lessor is a nonprofit/nonstock corporation that has applied for 501(c)(3) status with the IRS. Lessor will be considered a Type II supporting organization of the Aquarium under IRC Section 509(a)(3).

On the transaction date, the loan agreement for the Aquarium’sDelayed Draw Term Loan referenced in Note 6 was amended. The amended loan agreement allows funds to be advanced for: the purchase of
Note 13. Subsequent Event (Continued)

ACRC property; a portion of construction, equipping and furnishing ACRC property (directly or through ACRC Lessor, Inc.); the Leverage Loan; and the costs of issuing Delayed Draw Term Loan. Further amendments to the terms include replacing any reference to the Maximum Principal amount of $20,000,000 with $18,000,000. The amendment includes a clause requiring the Aquarium’s Minimum Unrestricted Liquid Assets at each June 30 and December 31 to be at least $20,000,000 for the first seven years of the amended loan agreement.

The Aquarium drew down $424,681 prior to the amendment on the agreement. Following amendments to the loan agreement, the Aquarium borrowed $11,441,882 on this facility. The Aquarium has the ability to request one additional advance of $617,938 with supporting documentation. The Aquarium then contributed $10,332,500 and $1,109,382 of the loan proceeds to Lender and Lessor, respectively. Lender, acting as the leveraged lender in the transaction, then loaned $10,332,500 of loan proceeds to an entity serving in the investment fund role of the NMTC transaction. Lender’s loan receivable earns interest of 1.21% per annum.

Lessor entered into loan agreements totaling $14,700,000 that qualify as “QLICI” loans under the NMTC program. Lessor’s loan payable bears interest of 1.42% per annum. The Aquarium agreed to indemnify the CDE investors for any potential tax credit losses.

The Aquarium and Lessor also entered into lease agreements whereby Lessor took control of the ACRC property under a 75 year ground lease and then leased it back to the Aquarium under a 29 year operating lease. Under the terms of the operating lease agreement, the Aquarium’s first annual rental payment of $105,000 is due on December 1, 2018. Annual rent escalates at a rate of 15-20% within the first seven years, increases 192% in year eight to $742,000 and escalates 1% or less for the remainder of the lease term with maximum annual rent of $796,000. Under the terms of the ground lease agreement, the Aquarium’s annual rental payment will be $10 for the entire term of the 75 year lease of 1.4937 acres located at 901 E. Fayette Street. Additional terms of the Ground Lease include a landlord contribution of $5,795,155 which includes the costs of the building, improvements to date, and $1,109,382 in cash. Both leases are triple-net leases, whereby the Aquarium is responsible for all maintenance, insurance, and taxes.
Independent Auditor’s Report on the Supplementary Information

To the Board of Directors
National Aquarium, Inc.
Baltimore, Maryland

We have audited the consolidated financial statements of National Aquarium, Inc. and Subsidiaries (collectively, the Aquarium) as of and for the years ended December 31, 2016 and 2015, and have issued our report thereon, which contained an unmodified opinion on those consolidated financial statements (see pages 1 and 2). Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole.

The consolidating information is presented for purposes of additional analysis rather than to present the financial position and results of activities of the individual entities and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.
